DETAILED ACTION

Response to Arguments

1. Applicant's response to the last Office Action, filed November 4, 2004, has been entered and made of record.
2. Applicant has amended Claims 1, 4, 9 and 14. Claims 1-20 are pending.
3. Applicant's arguments have been fully considered and are persuasive.

Terminal Disclaimer

The terminal disclaimer filed on November 4, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of prior Patent No. 6,718,068 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to amended claims 1, 4, and 9, the Applicant has amended step "d)" in each claim to clarify and distinguish the present invention over the cited prior art. In the Applicants remarks it is explained that the cited art of Kaplan uses a number of noise free pixel estimates in calculating the final noise free pixel estimate, while the present invention only chooses only the noise free pixel estimate which is closest to the pixel value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
